NOTICE OF TRAFFIC REVISIONS

2017 SANITARY SEWER CURED-IN-PLACE PIPE PROJECT

January 17, 2018

The City is currently contracted with Insituform Technologies for lining various sewer mains throughout the City.

Beginning Monday, January 22nd, work will be starting on pipes in and under SR 20 between Metcalf Street and N. Township Street and in Township Street between Northern Ave and SR 20. The work is anticipated to be completed by the end of Tuesday but may roll into Wednesday.

Work on **Monday, January 22nd** will include the Township Street line between Northern and Waldron and a line under SR 20 at the Township Street intersection. Both of these work areas will result in lane closures with flaggers directing one-way around the work zones.

Work on **Tuesday, January 23rd** will be on the north side of SR 20 between Metcalf and Murdock Streets. This will result in a lane shift along SR 20 and a closure of North Murdock Street at SR 20. A detour will be setup directing N. Murdock Street traffic to N. Reed Street using Marcella Lane. In addition, work on the north side of SR 20 between N. Murdock and N. Reed Streets and along the north side of SR 20 between Haines Street and N. Central Ave will be done. Both of these areas will use lane shifts and no road closures are anticipated.

Access to residents and businesses in the affected areas will be maintained.

Normal working hours are expected to be 7 AM to 4 PM. All lanes will be open as soon as possible but no later than the end of the work day.

Be advised that steam is used in this lining process so expect to see significant amounts of steam which may temporarily impede visibility.

Please feel free to contact David Lee, PE, City Engineer at 360-855-3219 or by email: dlee@ci.sedro-woolley.wa.us with any questions you might have.
