## CLEARING AND GRADING WORKSHEET

Attach to Public Works and Engineering Master Permit Application

**SITE ADDRESS:**

Applicant Name:	<input type="checkbox"/> CLEARING <input type="checkbox"/> FILL <input type="checkbox"/> CUT (EXCAVATION)
Assessor's Tax Parcel Number:	<input type="checkbox"/> GRADING ONLY (NO NET CUT/FILL) <input type="checkbox"/> GRADING (W/ IMPORT/EXPORT)
Short Plat / Plat Name (if applicable):	Total size of site: _____
	Total area to be cleared / graded: _____

Existing use of site (check all that apply):

Pasture    Forested    Agriculture    Residential    Commercial    Industrial    Roadway / Access    Open / Vacant Land    Other:

Intended use of site (check all that apply):

Pasture    Forested    Agriculture    Residential    Commercial    Industrial    Roadway / Access    Open / Vacant Land    Other:

Reason for Grading:

Road/Driveway Const.      Building Foundation      Surface Water Control      Regrade      Other

Is property within 200 feet of a Shoreline?    Yes \_\_\_    No \_\_\_

If filling, where is material coming from? \_\_\_\_\_      Percentage of fill from on-site: \_\_\_\_\_

If excavation, where is material going to? \_\_\_\_\_      Estimated average fill depth: \_\_\_\_\_      Greatest depth: \_\_\_\_\_

Anticipated Haul Route (see note below): \_\_\_\_\_

Estimated quantities:    Fill: \_\_\_\_\_ CYS      Excavation: \_\_\_\_\_ CYS      Retaining wall required? Yes \_\_\_ No \_\_\_      Height: \_\_\_\_\_

(One cubic yard is 27 cubic feet: (Length (ft) x Width (ft) x depth (ft) / 27 = cubic yards)

Total size of site: \_\_\_\_\_ Acres

Total area to be cleared/graded: \_\_\_\_\_ Acres

Percentage of work to be completed first year: \_\_\_\_\_

**SPECIAL INSTRUCTIONS**

1. Grading plan shall include at a minimum the following information unless specifically waived: vicinity map, topography, dimensions, clearing limits, open space, PCA reserve area(s), PCA buffers, Native Growth Conservation Areas, Significant Trees, Wetlands, PCA fencing, drainage systems, buildings, structures, landscape and restoration plans, and other information as may be required by the Director of Public Works / City Engineer / Planning Director. Refer to SWPWDS Ch. 2.1.5 for details of plan preparation requirements.
2. Proposed haul routes require permission of the City Engineer. Haul routes shall be limited to arterial streets as far as practical. See "City Truck Routes" map at [http://www.ci.sedro-woolley.wa.us/EngineeringPublicWorks/documents/20140711\\_truck\\_routes.pdf](http://www.ci.sedro-woolley.wa.us/EngineeringPublicWorks/documents/20140711_truck_routes.pdf). SWMC Ch 10.20.

**THIS IS NOT YOUR PERMIT.**
