

Exhibit H
to the Hearing Examiner
Staff Report

I am opposed to the construction of this facility. Prior to its construction the existing facility there was a farmhouse built in 1910 surrounded several acres of farm with a small herd of lovely beautiful Jersey cows. to see that horned dairy cows and replaced by a storage facility. what ever happened to farmland preservation

what percent of the users of these storage units in this county actually live here,

the first item on the env. rev. list the current place has (2) of the original lights that are deemed lights at this place consider the strip malls built on Burlington ^{BLV} how many are now vacant construction of these places will add traffic in this community even worse this proj will provide short term employment for a few construction companies and employment only 30-4 people after. How many of these storage facilities does this county need?
