To Sedro Woolley city council members:

I would like to address the intersection at Township and Jameson street. I have lived south of Jameson and Township since 1978. In that time I have seen many cars run the stop sign on Jameson and have seen four accidents, three of them roll-overs. People not thinking or not familiar and just don't see the stop sign. The latest on May 1st 2017. I would hate to see anyone else get hurt there. I do believe that there is more traffic on Jameson St. since the round-about was opened on hw 9

Just some ideas: I've seen solar stop signs that blink red on the out side, maybe a four way stop, maybe a hanging amber and red light or even a mini round-about like at Dunlap and Township. I hope you take this under consideration.

Sincerely,

Robert Gustafson
